

Ultraviolet Safety Hazmat Suit

STAVIOR
By Cenaura Technologies

The UVC hazmat suit is a nano coated full body protection suit with an impermeable whole-body clothing that is worn to protect against ultraviolet radiation.

This suit is specially designed for people who might be exposed to ultraviolet radiation (UV-A, UV-B, UV- C) working in various environments such as hospitals, offices, hotels that use ultraviolet sterilizers.

This suit offers great safety and protection against (UV-A, UV-B, UV- C) working staff or HVAC maintenance technicians who are involved in sterilization process.

It is reusable up to 50 times plus, washable by dipping in water with mild soap and drying in shade.
